Summary

Mobile Application developer with over 6 years of professional experience, mostly utilizing Java and Kotlin based frameworks.

I possess a wide range of skills in the field of software technologies. I have strong knowledge in different Mobile related technologies, for iOS and Android app development.

Work Experience (6 years 1 month) Samsung R&D Institute, Bangladesh

Feb 2022 - Current

Lead Engineer – Mobile

Working on Samsung Smart-Things(<https://www.smartthings.com/>) project and building different functionality for IoT connected devices.

My responsibilities include:

- Working on Smart-Things app, location module to manage location & geolocation for various types of devices.
- Refactor existing codebase to MVVM-C design pattern.
- Migrate existing application to use rest-based store communication from previously used Open Connectivity Foundation(OCF)

Raptas Software Inc, Bangladesh Senior Software Engineer – Android & iOS

Nov 2017 – Aug 2021

Worked for US Client Korbyt(<https://www.korbyt.com>), a digital signage company headquartered in Texas.

My responsibilities include:

- Worked on KorbytGO – an employee communication-based app.
- Worked on NVIDIA Shield Android for Korbyt's Embedded Android Player.
- Refactored untestable monolithic screens to MVVM architecture with tests.
- Incorporate Android Jetpack Architecture Components into existing apps to improve modularity and testability.

Chalo Technologies Ltd, Bangladesh Mobile Application Developer

Oct 2016 – Oct 2017

Chalo is a Local Startup Company which provides on demand car reservation facility across Dhaka.

My responsibilities include:

- Launched one of the first On-demand car reservation app in Bangladesh.
- Develop and Maintain Mobile applications according to the Client's requirements.

Technology Stack

(Proficient): Android, Java, Kotlin, SQL **(Familiar):** Swift, Flutter, C++

Education

B.Sc in Computer Science & Engineering

December 2015

Islamic University of Technology (IUT)

Result: Cgpa 3.55 (out of 4.0)
